

# The Sussex Health and Care System

The Sussex ICS, or the Sussex Health and Care Partnership as it has been known, covers the geographical footprint of the three local authorities in Brighton & Hove, East Sussex and West Sussex, with a population of 1.7 million people.

The four **Statutory Partners** in the Sussex Health & Care System are:

- [NHS Sussex Integrated Care Board](#)
- [Brighton & Hove City Council](#)
- [East Sussex County Council](#)
- [West Sussex County Council](#)

The seven **NHS Provider Partners** in the Sussex Health & Care System are:

- [East Sussex Healthcare NHS Trust](#)
  - [Queen Victoria Hospital NHS Foundation Trust](#)
  - [South East Coast Ambulance Service NHS Foundation Trust](#)
  - [Surrey and Sussex Healthcare NHS Trust](#)
  - [Sussex Community NHS Foundation Trust](#)
  - [Sussex Partnership NHS Foundation Trust](#)
  - [University Hospitals Sussex NHS Foundation Trust](#)
- **Voluntary and Community Sector also embedded in Place based arrangements**

# Shared Delivery Plan

[Improving Lives Together](#) sets out the ambition across health and care in Sussex over the next five years.

Its aim is to improve the lives of local people by supporting them to live healthier for longer and making sure they have access to the best possible services when they need them.

Partners across health and care have agreed three key areas for change that will bring about the greatest benefit to local people:

- Building integrated community teams and local partnerships across Brighton & Hove, East Sussex and West Sussex – to allow services and organisations to work in a joined-up way to better meet the needs of each local community.
- Growing and supporting our Sussex health and care workforce – to attract more people to work in health and care, as well as supporting and developing the skills or careers of our existing staff.
- Improving the use of digital technology and information – to help join-up our services and enable people to access advice or care more easily.

[Improving Lives Together](#) is built on work that is already taking place and has been set out in the Health and Wellbeing Strategies in Brighton & Hove, East Sussex and West Sussex.

It has also been shaped by evidence, feedback and insight from partners and the public, and responds to a number of national strategies, plans and guidelines that need to be met.

# Brighton & Hove Shared Delivery Plan

## Integrated Care Strategy Delivery Priorities

The key areas of focus in the strategy are:

- **Place and Integrated Community Teams**
- **Digital and Data**
- **Workforce**

In addition, to enable delivery across all our plans, there is a need for us to develop strong Clinical Leadership across the system, as well as to continue our focus on addressing health inequalities and managing our finances in a sustainable way.

## Brighton & Hove Health and Care Partnership Place-based Plan Priorities

The Brighton and Hove Health and Care Partnership have agreed 5 Place based priorities, that are set out in the Place Based Plan 2022/23;

- **Children & Young People**
- **Mental Health**
- **Multiple Long Term Conditions**
- **Multiple Compound Needs**
- **Cancer**

## Brighton & Hove Joint Health & Wellbeing Strategy 2019-2030

[brighton-hove-health-wellbeing-strategy-2019-2030-26-july-19.pdf](#)

## NHS Operational Priorities

There are areas of the planning guidance where work is already underway which will enable us to deliver the objectives, and others where we are already achieving the target and believe we will continue to do so. However, there are areas that require significant focus for us to achieve and these will be an operational priority for us going into next year. These are:

- **Urgent and Emergency Care**
- **Planned Care**
- **Primary Care**
- **Discharge**

## CORE20PLUS5

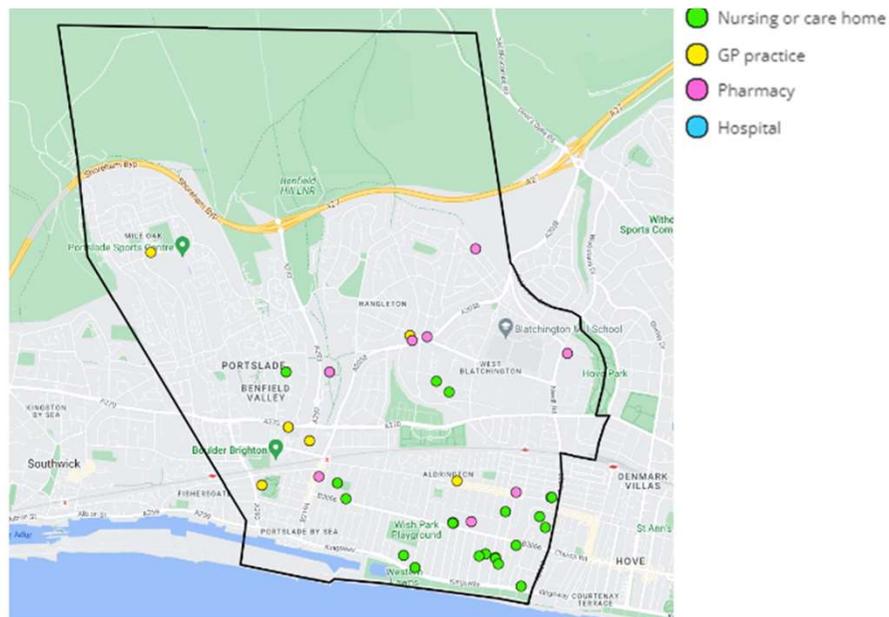

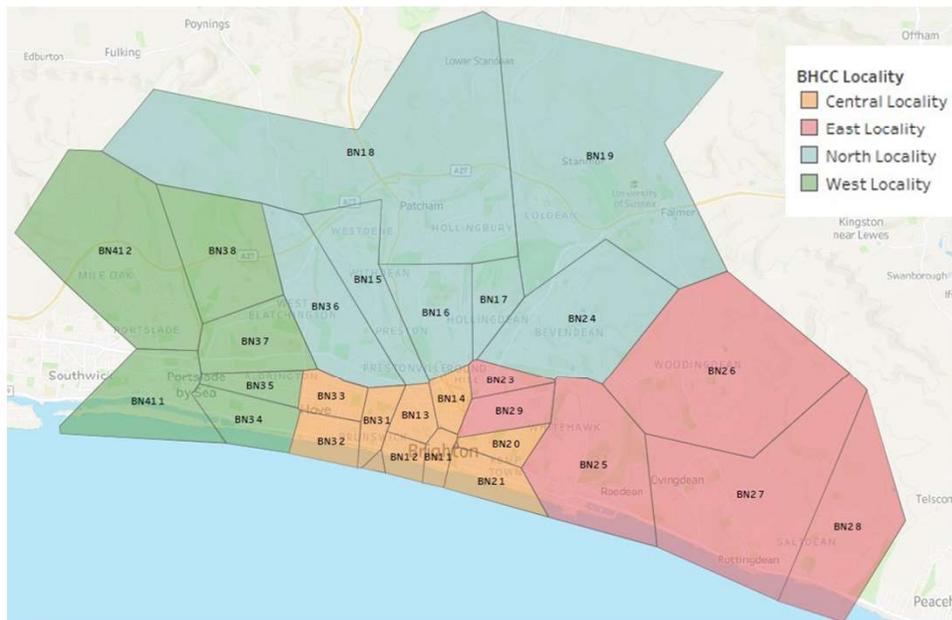

The Core20PLUS5 approach is a national programme and requires each System to identify its 20% most deprived areas, its Plus /inclusion population groups experiencing worst access, experience and outcomes and plans to address 5 Clinical priorities -Hypertension treatment to target, Chronic Respiratory Disease, Serious Mental Illness Physical Health Checks, Cancer Early Diagnosis and Maternity Continuity of Carer.

The agreed “Plus” Population groups for Brighton & Hove are:

- **Carers** - including young carers
- **Children & Young People in Transition** - more specifically those known to Mental Health services in transitions from Children and Adolescent Mental Health service to Adult Mental Health services
- **Globally displaced communities** - starting with refugees, also looking at addressing the adverse impact of some reportable diseases and refugee children.
- **LGBTQ+**

# Integrated Community Teams in Brighton & Hove- Neighbourhood Areas

## West Neighbourhood Area

- 59,332 residents according to 2020 Mid year estimates – Census 2021 estimate similar at 59,795
- The West locality contains some of the most deprived areas in the city, some in the most deprived 20% of areas in England but also some of the least deprived
- There are more children in West than Brighton & Hove, but lower than England - with 1 out of 6 people aged 0-15 years. There are more older people at 1 in 6 of the population
- Higher rates of home ownership
- Higher employment rate and lower crime rate
- 16% of residents were not born in the UK and for 7% English is not their first language – lowest of the four localities
- 2 times higher LGB+ percentage than England – 6% of adults, but lower than other areas of the city.
- Similar life expectancy to Brighton & Hove
- Highest level of unpaid carers – 8.8%
